For immediate release: Al-jon Manufacturing introduces the Model 4020CLS – Container Loader System

Whether you have a 20 or 40 foot container, the Al-jon 4020CLS Container Loader System will dramatically improve your operation, productivity and safety significantly improving your bottom line.

The extreme heavy duty structure is designed for years of trouble free operation. “Weighing 30,000 pounds heavier than our competitors, the Al-jon 4020CLS is built to last the most rugged applications”, said Curt Spry, Scrap Sales Manager.

The operation is simple. An operator loads the hopper with a with a crane, magnet, material handle, etc.. A digital readout will let you know when the maximum weight has been loaded. Then with a press of a remote button, the 4020CLS will automatically load the container with absolutely no damage to the container. The tractor trailer stay stationary during the loading cycle. The 4020CLS does the work automatically making it the safest and productive container loader in the market.

For more information on how the Al-jon 4020CLS can end your headaches of loading a container and improve you bottom line, please call toll free: 888-255-6620.
