**100% AMERICAN MADE** 

## THE INDUSTRY-LEADING WORKHORSE OF SCRAP MATERIAL

### Maximum Power Output

The ALJON 580CL is a full featured twin-ram car logger/baler is capable of efficiently processing 20-25+ complete end of life cars, vans, and pick-ups (including engines, transmissions, and running gear). Power for the machine is provided by a proven Volvo-Penta Tier 4 Final diesel or by an electric motor. The comfortable climate controlled cab is equipped with ALJON's exclusive monitoring system that allows the operator to monitor machine functions as well as see the baling function in real time.
